Destin's Founding Father...The Untold Story of Leonard Destin has just arrived. This book has been five years in the making. Leonard Destin's life, especially before he arrived at East Pass in 1851 has been thoroughly researched. He came from a very interesting family of seafarers and we now know what he did for the sixteen years after he left his home in New London, Connecticut, until he actually settled at East Pass, which is today called Destin, Florida.
